Each student will do 7/ 8 surgeries per module in 4 days, of the techniques that will be teach.

The students will have classes with guest professors, renowned in the field of Brazilian Implantology.

The specialization last **24 months** .

Course Schedule

Theory

- ANATOMY
- ANESTHESIOLOGY RADIOLOGY
- HISTORY OF IMPLANTOLOGY
- BIOLOGY OF OSSEOINTEGRATION (TYPES OF OSSIFICATION) INFLAMMATORY PROCESS
- TYPES OF IMPLANTS AND CONNECTION IMPLANT SURFACE TYPES
- GROWTH FACTORS
- PREOPERATIVE SYSTEMIC EVALUATION THE OSODONTIA'S OSODONTIC
- ALENDRONATES AND BISPHOSPHONATES IN IMPLANT DENTISTRY
- DRUG PROTOCOL IN IMPLANT DENTISTRY TYPES OF LOADS IN IMPLANTOLOGY MOLDING MATERIALS
- MOLDING TECHNIQUES
- SCREW-ON PROSTHETIC COMPONENTS CEMENTED PROSTHETIC COMPONENTS
- PROVISIONALS ON IMPLANTS
- MOUNTING MODELS ON ARTICULATORS DIGITAL DENTISTRY
- TODAY OVERDENTURE
- CERAMIC PROTOCOL
- OCCLUSION IN PROSTHESIS ON IMPLANT EMERGENCY MEDICAL IN DENTISTRY ORTHODONTIC ANCHORAGE BIOMECHANICS IN IMPLANT DENTISTRY PROSTHESIS EMERGENCY PROFILE
- MAINTENANCE AND COMPLICATIONS IN IMPLANT PROSTHESIS
- MAINTENANCE AND COMPLICATIONS IN OSSEOINTEGRATED IMPLANTS

Course Schedule

Practice

- PLATELET AGGREGATES
- BMP
- SW STRONG IMPLANTS
- UNITITE IMPLANTS
- EPIKUT IMPLANTS
- OSTEOTOME TECHNIQUE FOR IMPLANT INSTALLATION
- BONE CONDENSER TECHNIQUE FOR IMPLANT
- INSTALLATION ALVEOLAR RECONSTRUCTION WITH BARRIERS AND MENBRANAS
- ASEPSIS AND ANTISSEPSIS OF THE SURGEON AND THE
- PATIENT TABLE ASSEMBLY AND SURGICAL INSTRUMENTS
- SURGICAL TECHNIQUE
- DRILLING SEQUENCE
- IMPLANT OPENING
- CUSTOMIZED AND CONVENTIONAL HEALERS
- ALL ON FOUR TÉCNIQUE
- FULL ARCH TÉCNIQUE
- Distalization of mandibular nerve

- **BONE GRAFT**

Inlay – Ramus-Chim-Tuber

Onlay – Ramus -Chin-Tuber

Khoury Técnica

RDI Técnica

Tunilized bone graft

Sausage technique (Istvan Urban)

- SINUS LIFTING
- ZYGOMATIC IMPLANTS
- PTERYGOID IMPLANT
- TRANS NASAL IMPLANT
- TRANS SINUS IMPLANT
- ALVEOLAR MAINTENANCE – AESTHETIC AREA
- GUIDED SURGERY
- PLASTIC SURGERY PERIODONTICS

What surgery techniques will you learn in the specialization?

- Conventional Implants in functional and esthetic area
- Bone Heal Membrane (Bone Regeneration) All on Four
- Six in Maxilla
- Bi-Maxilar
- Immediate Sinus Lifting

Bone Grafts Techniques:

- Inlay - Ramo-Mento-
- Tuber Onlay - Ramo-
- Mento-Tuber
- Khoury technique
- RDI Technique
- Tunneled bone grafting
- Sausage technique (István Urban)
- Zygomatic
- implant Pterygoid
- implant Trans
- nasal implant
- Trans sinus
- implant
- Alveolar maintenance in esthetic area Guided surgery
- Lateralization of mandibular nerve

How can I organize my travel to Brazil?

As soon as you register for the specialization, you will receive a newsletter about our school and a file with all the partnerships we have, including a hotel with a special rate for international specialization students and contact details for a partner travel agency.

In this file you will find the telephone numbers of these contacts and also some tips on how to make your stay as smooth as possible and meet your needs while you are here.

We don't oblige any student to book with our partners, we're just helping your journey.
